Preparing for a 10-Min Room Demo

- ☐ First time presenting about more than 1 object.
- ☐ Expanding to the object's context – where is lives and what else it relates to.
- ☐ Think of a room like a BIG object – all the components you used in developing a single object lesson apply.
- ☐ The conversation progresses from beginning, middle, and end.
- ☐ The conversation has a framework, an organizing structure.
- ☐ Continue to think about the audience.
