

# MANSION DISPLAY UPDATE: PANTRY

December 10, 2024

As part of a planned refresh in the pantry and staff dining room in 2025, the display on two shelves in the pantry (highlighted with a red box below) has been updated. Clicking on the object numbers will take you to Hillwood's website for more information about each breakfast set.

Next year, Hillwood will enhance the pantry and staff dining room with new objects from storage and further explore the relationship between Marjorie Merriweather Post and her staff. This initiative will be completed in two phases: the pantry refresh in the first quarter of 2025, followed by updates to the staff dining room later in the year, around late summer or early fall. For a preview of these plans, [please see the December newsletter article by Wilfried Zeisler, deputy director and chief curator.](#)

## Removed:

### Breakfast Set

Shelley Potteries, Limited, Great Britain, 20<sup>th</sup> c.  
Bone China  
Bequest of Marjorie Merriweather Post, 1973

Object Number: [26.153](#)
