

Mansion Display Updates: Additional Objects Removed for Photography

July 6, 2026

On Monday, June 29, the collections team began temporarily removing a number of objects throughout the mansion for an upcoming photography project. Throughout July, additional objects will also come off view to be photographed. The list below is not exhaustive and features notable objects that have been or will be removed in the coming weeks, and, if applicable, those that will be installed in their place. We will continue to keep volunteers apprised of any additional changes to the mansion display throughout the course of the project.

All objects will be returned to the mansion at the end of August once the photography has been completed. Please note that the pieces to be removed are subject to change.
